Health Record

What is the Department of Defense TOL Patient Portal Health Record?

The DoD TOL Patient Portal Health Record provides convenient access to personal health data retrieved from AHLTA, your military electronic health record, including:

- *Outpatient Medications
- *Allergies
- *Outpatient Problem Lists
- Outpatient Encounters
- *Laboratory Results (Chemistry/Hematology, Microbiology, and Anatomic Pathology results available within 4 days from certification date)
- *Radiology Results (Available within 3 days from exam date)
- *Vital Signs
- AHLTA Immunizations

* DoD and VA data is available

What are the benefits of the DoD TOL Patient Portal Health Record?

You can securely view, download, print and share lab results, radiology results, medication profile, allergy profile, encounters, problem lists, immunizations and vital signs, for yourself and your family members under the age of 12.

DoD TOL Patient Portal Health Record provides you access to a customizable report containing the last 30 years of your personal health data. You can choose to view, download, save, or print your personal health data in portable document format (.pdf), or (.xml) continuity of care document (CCD). The CCD allows you to share your data with family, care givers, DoD providers, non-DoD health care systems or providers, or to document data in your preferred personal health record.
