

Source: Health Care Survey of DoD Beneficiaries

### Inside Consumer Watch

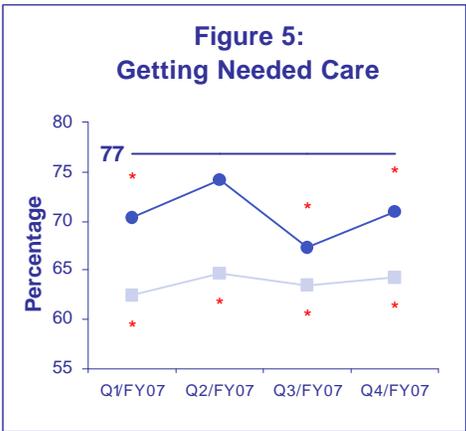

TRICARE Consumer Watch is a brief summary of what TRICARE Prime enrollees in your region say about their healthcare. Data are taken from the Health Care Survey of DoD Beneficiaries (HCSDB). The HCSDB includes questions from the Consumer Assessment of Healthcare Providers and Systems (CAHPS), a survey designed to help consumers choose among health plans.

Figures 1 through 4 show the proportion of Prime enrollees enrolled to direct care or using purchased care who respond with a rating of 8 or above when asked to provide a rating on a 0 to 10 scale (where 0 is bad, and 10 is good), of their Health Care,

Health Plan, Personal Doctor, or the Specialist they see most often. Rates are adjusted for age and health status.

Rates are compared with averages taken from the 2006 National CAHPS Benchmarking Database (NCBD), which contains results from surveys given to beneficiaries by civilian health plans. Rates differing significantly from the benchmark are bolded and shown in red.

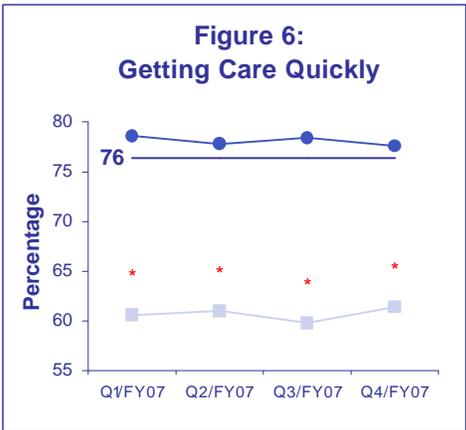

### Health Care Topics

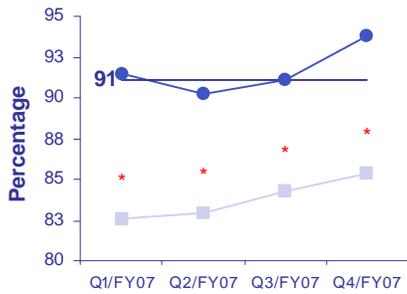

Health Care Topics scores average together results for related questions. Each score is the percentage who “usually” or “always” got treatment they wanted or had “no problem” getting a desired service. Asterisks show values significantly different from the NCBD benchmark ( $p < .05$ ).

Figure 5 presents the composites “Getting needed care”. Scores in “are based on patients’ problems getting referrals and approvals and finding a good doctor.

“Getting care quickly”, shown in Figure 6 scores concern how long patients wait for an appointment or wait in the doctor’s office.

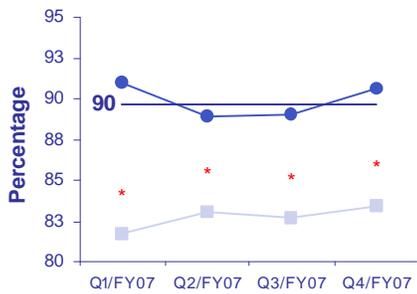

**Figure 7:  
Courteous & Helpful Staff**

“Courteous and helpful staff” scores, shown in Figure 7, measure the courtesy and helpfulness of doctor’s office staff.

**Figure 8:  
Doctors' Communication**

Scores in Figure 8, “How well doctors communicate” are based on whether the doctor spends enough time with patients, treats them respectfully and answers their questions.

**Figure 9:  
Customer Service**

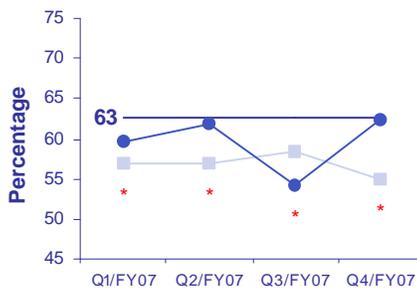

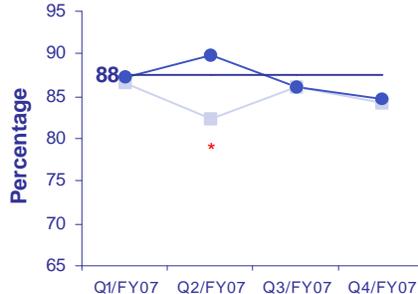

Figure 9 shows “Customer service” scores, which concern patients’ ability

**Figure 10:  
Claims Processing**

to get information about their health plan and manage its paperwork.

“Claims processing” scores in Figure 10 are based on the timeliness and correctness of plan’s claims handling.

**Preventive Care**

The preventive care table compares Prime enrollees’ rates for diagnostic screening tests and smoking cessation with goals from Healthy People 2010, a government initiative to improve Americans’ health by preventing illness.

Rates that are significantly different (p < .05) from the Healthy People 2010 goal are shown by red italics.
